WORK EXPERIENCE

Brannovate ● Software Engineering

FEB 2023 - NOW

Spearheaded the end-to-end development and design processes for a variety of projects, seamlessly blending UI/UX expertise with app and web development skills.

Collaborated with cross-functional teams to create intuitive and visually appealing user interfaces for both web and mobile applications.

Conducted thorough user research and usability testing, using insights to drive design decisions and improve overall user experience.

Developed responsive web designs using HTML5, CSS3, JavaScript, ReactJS, WordPress, jQuery, and Bootstrap, ensuring a cohesive and user-friendly front-end.

Utilized React Native to architect and implement cross-platform mobile applications with visually engaging and intuitive interfaces.

Integrated third-party APIs to enhance app functionality, contributing to a seamless and feature-rich user experience

Crea-Biz ● Front End Developer

JUNE 2022 - OCT 2022

As a Front End Developer at Crea-Biz, I crafted visually appealing websites using HTML, CSS, and JavaScript for seamless user experiences. Leveraging Bootstrap for responsive design, I specialized in WordPress customization, tailoring themes and plugins to meet client needs. Collaborating closely with cross-functional teams and clients, I ensured consistent, user-friendly websites while providing ongoing support for maintenance and updates.
